*We're on the Home Stretch!*  
**in the MOOSE VOLUNTEER CAMPAIGN**

Only 2 months remain to help your lodge make its quota

*Yours FREE For only one member*

**HELP YOUR LODGE GO "OVER THE TOP" SO IT CAN RECEIVE FREE A COMPLETE SET OF NEW OFFICIAL OFFICERS' COLLARS**

Your Lodge needs this set of official Officers' Collars. Complete set of 12 includes Trustees' Collars. All are rich in design and of highest quality, brilliantly colored silk plush. If your Lodge had to buy them they would cost \$75. Help your Lodge make its quota so it can receive the set FREE. The new Officers' Collars, awarded by the Membership Enrollment Department, will make each meeting more impressive.

**Note LODGES MAKING FULL QUOTAS BEFORE CLOSE OF CAMPAIGN WILL QUALIFY FOR SPECIAL AWARDS DURING REMAINING MONTHS**

*Let's Go! we're counting on you to*

**HANDSOME DUR-O-LITE AUTOMATIC EJECTOR PENCIL**

Every Moose should have this handsome Dur-O-Lite Automatic Ejector Pencil. Get yours today. If you already have one, get an additional pencil by signing up another member. This is not just an ordinary pencil, but a handsome automatic pencil in dark red plastic. It has the words "Loyal Order of Moose" on one side of the barrel. *Your Name* or that of your wife, son, daughter or sweetheart, will be engraved on the other side. This makes the pencil—which is a \$2.50 value—even more valuable to a Moose. It shows again that you are an active member and are doing your part to help Mooseheart.

**YOUR NAME ENGRAVED HERE BY A MOOSE-HEART STUDENT**

*Automatic Action*

To propel the lead: Hold pencil in vertical position with writing point down. Pump the top end by pressing with thumb and releasing. The lead advances from the point approximately 1/16" each time the top is pumped. The leads feed automatically one after another until lead magazine is empty.  
To adjust eraser: Remove Automatic Eraser Cartridge from pencil, and adjust eraser by turning the cartridge cap. This acts also as a reversible pump member. It telescopes into the top end of the pencil and is removed by a straight end-wise pull.
